Organon Advisors, Inc.

Applications. Analytics. Assurance.

Executive Summary

A team with past performance in the core capabilities Security & Protective Services demands.

Organon Advisors, Inc.

We are a professional services firm with a focus in the diplomatic and foreign affairs mission space. We provide logistics, financial services, training, and secured technology services to the Department of State and the agricultural attaches at the Department of Agriculture. We have deep expertise with and provide guidance and training to personnel at 93 U.S. embassies. Our team also includes specialists who have served in security positions, as tactical training coordinators, and as military and law enforcement agents in U.S. federal organizations.

EXPERTISE
